Relevant Projects

Summarization using question answering
- ○ This is an initial study of my thesis. Here I proposed a framework to generate summarization by using question answering method.

Land Use Classification using Satellite Image Dataset
- ○ Applied custom-built CNNs for land use classification.
- ○ Applied transfer learning to fine-tune pre-trained networks such as AlexNet and ResNet.

Carry-over effects in interaction fidelity: Impact of High-to-low vs low-to-high usage
- ○ In this study, the influence of a high fidelity virtual reality (VR) interaction over a subsequent low fidelity virtual reality interaction and vice versa were evaluated.
